***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

The species are independent or distinct because:

- I. Claims 1-8, 10-14, 23-27, and 29-31 are drawn to a stringed musical instrument classified in class 84, subclass 309.
- II. Claims 9, 16-22 are drawn to a bridge mechanism, classified in class 84, and subclass 307.
- III. Claim 28 drawn to a bass bar classified in class 84, subclass 276.
- IV. Claim 15 drawn to a post classified in class 84, subclass 277.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after

Art Unit: 2837

the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

2. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.
